

Team Contributions:

- **Robert B. Thompson (Submitter):** Compiled the journal, ran the tilt and static tests, provided the dock and wolf photo data, and combined the group notes.
- **Njeh Ababio:** Handled image resizing tests, ran the dog classification checks, and documented input errors.
- **Olis Bahari:** Outlined system stages, provided the data clustering charts, ran the cat photo checks, and documented how image changes break system guesses.
